

Size Guide for Small Item Aid

Use this size guide to work out which Small Item gripping aid will fit you best.

A: Wrist Measurement

Small	Standard/Large
135mm – 170mm	160mm – 210mm
5.3" – 6.3"	6.3" – 8.3"

Wrist Measurements for the Small Item aid

A = circumference of narrowest part of wrist

The small item aid does not need to fit as tightly as our other gripping aids. If you are borderline on the wrist size then consider your hand size across the knuckles: if it is greater than 80mm you may want to consider the Standard/Large size.
