Adaptive Footwear

Billy & Friendly Adaptive Footwear

Adaptive footwear is designed to provide support, comfort, and ease of use for individuals with various disabilities. These special needs shoes may feature modifications such as extra-wide openings, Velcro closures, and removable insoles to accommodate different foot sizes and shapes. We are proud to supply two very popular brands in the world of adaptive footwear, Friendly Shoes and Billy Footwear. These shoes are suitable for children with CMT, Splints and other conditions that make footwear difficult to find. The range of disability footwear includes trendy designs in a wide range of widths and sizes. To help with sizing please use the Billy and Friendly measuring guides. An accurate measurement is essential for specialist shoes, if you need to return them you will need to pay for postage per supplier. All sizes are in UK sizes. When using the filters: T = toddlers, K = kids, W = wide and just a number is standard UK adult sizing.
